**PRESIDENTIAL LEADERSHIP
PROGRAM**

COHORT 2 (2017 - 2018)

Presidential Leadership Program – Sponsor & Facilitator

Dr. Mark B. Rosenberg is fifth president of Florida International University (FIU). A public institution of higher education, FIU is the face of the country's future in higher education demographics: it is a majority-minority institution that leads the country in the production of minority degrees in the sciences and engineering.

Dr. Rosenberg has served as the fifth president of FIU since August 2009. A political scientist specializing in Latin America, Dr. Rosenberg is the first FIU faculty member to ascend to the university's presidency.

Under his leadership as president, FIU has increased enrollment to almost 56,000 students, improved graduation rates by nearly 13% and hired over 500 new faculty. As President, Dr. Rosenberg has provided leadership to grow the institution's budget, improve student retention and graduation rates, expand internships for enrolled students, and coordinate FIU's emergence as a leading producer of graduates in priority national and state areas focused on science, technology, engineering and math (STEM). The university has been named as a Carnegie "Highest Research" as well as an "Engaged" institution, and has developed path-breaking partnerships with the Miami Dade County Public Schools, JP Morgan Chase, Florida Power & Light and Royal Caribbean Cruises Ltd. Research expenditures have grown by nearly 30% to nearly \$171 million, and over seventy new student advisers and counselors have been hired for a restructured and expanded student graduation initiative.

From 2005 to 2009, Dr. Rosenberg served as the second Chancellor (he was the first that was formally selected by the Board of Governors) for the State University System of Florida, which includes all of Florida's public universities – over 325,000 students and an all-accounts budget of nearly \$9 billion. As chancellor, Dr. Rosenberg led the system's strategic development and financial planning and policy initiatives, working closely with Governors Jeb Bush and Charlie Crist and the state legislature to secure support for SUS priorities. During this era, major new strides were made in research support for the system, over \$1 billion was provided for new facility construction, and a new SUS strategic plan was developed, approved and launched.

Prior to becoming chancellor, Dr. Rosenberg was integrally involved in the expansion and development of FIU into a major public research university. As Provost and Executive Vice President for Academic Affairs from 1998 to 2005, Dr. Rosenberg spearheaded the establishment of a law school in 2002 and a medical school in 2006. Under his leadership, FIU increased enrollment, implemented major campus construction projects, and was invited to join the select national honor society Phi Beta

Kappa. Dr. Rosenberg was also instrumental in moving FIU into the top tier of Carnegie Foundation research universities.

Dr. Rosenberg's academic career began at FIU in 1976 as an assistant professor of political science. In 1979, he founded the FIU Latin American and Caribbean Center, which today is one of the nation's premier federally-supported research and teaching centers focusing on the region. Dr. Rosenberg subsequently served as the Founding Dean of the College of Urban and Public Affairs and Vice Provost for International Studies. He has also been a Visiting Distinguished Research Professor at The Peabody College of Vanderbilt University, and a Visiting Professor at the Instituto Tecnológico de Monterrey (ITESM) in Mexico.

Dr. Rosenberg earned a B.A. in 1971 from Miami University of Ohio and a Ph.D. in Political Science with a graduate certificate in Latin American and Caribbean Studies from the University of Pittsburgh in 1976. He has written or co-edited seven books and numerous scholarly articles in leading journals. His latest book, *The United States and Central America: Geopolitical Realities and Regional Fragility* (2007), is a Harvard University project co-authored with Luis Guillermo Solís of Costa Rica. Governmental and media organizations have frequently sought Dr. Rosenberg's expertise on Latin America. He is a member of the Council on Foreign Relations, has testified before Congress numerous times, and has served as a consultant to the Department of State and the U.S. Agency for International Development.

Firmly committed to service with national and local educational impact, Dr. Rosenberg serves as Chair of the Association of Public Land-Grant University's (APLU) Coalition of Urban Serving Universities (USU); Chair of APLU's Commission on Access, Diversity, and Excellence (CADE); and Co-Chair of the Board on Science Education's (BOSE) Roundtable on Systemic Change in Undergraduate STEM Education. He also recently concluded his term as Chair of the National Academies' Committee on Developing Indicators for Undergraduate STEM Education, as well as a member of the national Task Force of Apprenticeship Expansion.

Within Miami-Dade County, Dr. Rosenberg was the 109th Chair of the Greater Miami Chamber of Commerce (GMCC), one of Florida's leading business associations; and also served a 5-year term as Chair of the Academic Leaders Council (ALC) for the Beacon Council, Miami-Dade County's official economic development organization. He serves on the Board of Directors of City National Bank of Florida, and is active in a variety of other civic organizations, including the Holocaust Memorial Miami Beach, Florida Council of 100, and the United Way of Miami-Dade County.

Dr. Rosenberg is a first-generation college graduate whose two children, Ben and Ginelle, are both graduates of FIU. He and his wife of over 40 years, Rosalie, are members of Temple Menorah in Miami Beach.
