to discuss

## **FIU's Strategic Plan 2020-2025**

---

Higher education is in the midst of a profound transformation. Technological advances continue to transform society – how we communicate, work and learn. To stay ahead of the change and continue to make an impact on our community – and beyond – we must once again look ahead.

---

FIU's 2020-2025 strategic plan is the next step in our university's evolution. Building on our past achievements and further prioritizing learner success, FIU's vision for the future is just as ambitious as our *BeyondPossible2020* strategic plan. It's what will allow us to chart the course forward, so that we can transform from a traditional institution of higher education to an institution focused on 21<sup>st</sup> century lifelong learners.

---
