

MEMORANDUM

September 17, 2018

Dear FIU family,

FIU is a university that is committed to impact. Every day, we use the blessings of our talents in research, teaching and helping others to move our community and world forward.

Nine years ago, FIU was designated a Carnegie Engaged University for our efforts to uplift Miami - and beyond. We need your help to earn this prestigious title once again!

By sharing your efforts, we can continue to demonstrate our commitment to the community.

**At FIU, the Future Is Us**

That's why we started the [#FutureIsUs campaign](#). We want to bring visibility to, recognize and create a university-wide culture of being community engaged.

This collective effort between FIU students, faculty, staff and administration is highlighting the work FIU is doing in our community and how we are collaborating to address issues that are affecting our globe.

Please join us to celebrate the kick-off of the #FutureIsUs and learn more about how you can participate in the campaign and share your own stories of how your units and departments are working to leave our world a better place.

**Monday, September 24, 2018**

*Raffles, treats & giveaways*
